

EnergiSpeak

EnergiSpeak Pvt Ltd

Transforming Energy Management
with Expertise and Innovation

Introduction

EnergiSpeak Pvt Ltd envisions revolutionizing the Energy Management sector by providing professional services in digitalizing Energy Management sector to bring multiplicative benefits which will enhance power generation efficiency, optimize energy consumption, and reduce losses in energy transmission and distribution. With over 100 man years of experience, we simplify complex solutions, integrating computers, communications, Energy and renewable energy domains to usher in a new era of green power and accelerate Net-Zero initiatives.

Mission and Vision

With a rich history spanning over thirty years, EnergiSpeak Pvt Ltd emerges as a leading entity in Energy Technology (EnTech), leveraging extensive experience in the digital transformation of the energy sector. From pioneering the introduction of digital energy meters to the latest applications of Artificial Intelligence (AI) and Machine Learning (ML), EnergiSpeak stands poised to guide and drive growth in the energy industry through its professional services.

EnergiSpeak

Business Model

As a start-up initiative, EnergiSpeak focuses on designing, developing, supplying, implementing, operating, and managing technical solutions. We embrace a Software as a Service (SaaS) model, sharing hardware costs with solution beneficiaries through a monthly fee from day one.

IoT-Based Solutions in Energy Management Systems

EnergiSpeak's IoT-based automated solutions in Energy Management and renewable energy hold immense promise in shaping a sustainable future. By synergizing digital technologies with renewable energy, we tackle the challenge of mitigating climate change. Our decentralized, transparent, and immutable applications not only offer far-reaching benefits but also revolutionize operations in the renewable energy sector, promoting efficiency, transparency, and accountability.

EnergiSpeak

Comprehensive Solutions

We leverage the full potential of human ability, AI's capabilities, deep knowledge of energy management, and wide experience in solving complex problems to bring the synergy between AI superiority and high potential human cognition together to transform complex energy management problems into long-lasting opportunities.

Our Solutions include

1
Enterprise Energy Management Systems

2
Asset Management Systems

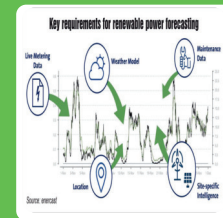

3
Data Acquisition Systems

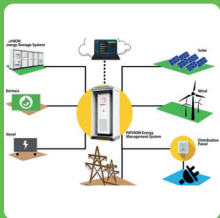

4
Master Data Management

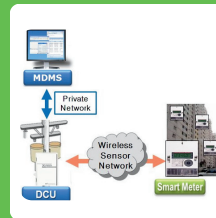

5
Reporting & Analytics

6
Energy Planning, Forecasting & Scheduling

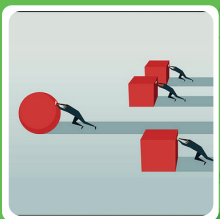

7
Renewable Energy Management Systems

8
Advanced Metering Infrastructure

9
Electronic Energy Billing Systems

10
Benchmarking & Optimization

11
Microgrids

12
Energy Conservation Measures and performance analysis

EnergiSpeak

Expert Team

At EnergiSpeak, we take pride in presenting a seasoned team of professionals, each with 2-3 decades of invaluable experience in crafting cutting-edge Energy Management Systems. Our team's expertise encompasses the entire spectrum of energy solutions, providing comprehensive services from inception to maintenance.

Our Comprehensive Services Include

- ✓ System Design
- ✓ Requirement Mapping
- ✓ Detailed Project Reports
- ✓ Project Management Services
- ✓ Supply, Installation, and Commissioning
- ✓ Operation & Maintenance Services
- ✓ Annual Maintenance Contracts

Our Impressive Track Record

- ✓ End-to-End Solutions : Over 200 successful solutions in ABT/DSM, APC, EMS, and Energy Efficiency in Power Plants across India
- ✓ Renewable Energy Management : 10+ successful implementations
- ✓ Utility-Based Solutions : Pioneering 3 solutions for utility needs
- ✓ Industrial Energy Management : Over 300 tailored solutions for industrial clients
- ✓ Smart Meter Electronic Billing Systems : Implementing 10+ efficient systems
- ✓ Substation Data Analytics : Over 20 successful implementations
- ✓ Demand Forecasting Solutions : Crafting 3 advanced forecasting solutions

Contact Us

For general inquiries, contact us with your requirements. Alternatively, reach us by phone at ☎ +91 9920995656 or email us at ✉ es@energispeak.co.in. We are dedicated to providing information and support for your energy management needs. Whether you have sales or support questions, feel free to contact us – we're here to help.
